Your go-to guide for a customized deck.

DeckoRail

Wood, composite and vinyl
deck railing systems

very me

From the richness of traditional to the clean lines of contemporary, DeckoRail® post caps, balusters, postcovers and accessories are available in a wide variety of colors, finishes and materials, giving you everything you need to turn an ordinary deck or porch into something very you.

Visit our DeckoRail gallery on Pinterest for design inspiration.

Get the free scanner at homedepot.com/scan or text HDSCan to 43588.

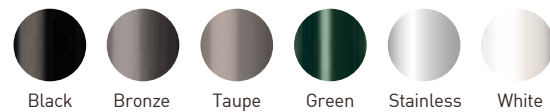

Leave ordinary behind.

Whether you're thinking about picking one baluster style for a more traditional look or mixing and matching wood, aluminum and glass balusters to create a distinctive railing system, DeckoRail® components are simple and easy to install, giving you the resources you need to create your very own work of art.

DeckoRail aluminum balusters are available in a variety of colors and have a durable, low-maintenance, powder-coated finish that's backed by a limited 10-year warranty. And our shatter-resistant, tempered safety glass balusters give you an unobstructed view of your surroundings without breaking the bank.

So take a look around. Find something that inspires you—and create something extraordinary.

DeckoRail Palette

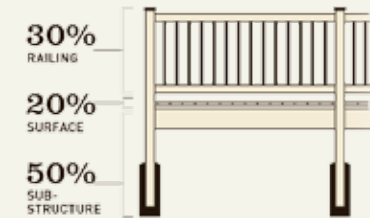

DeckoRail Art

The math works in your favor.

Let's say you're considering a simple, wood baluster or spindle. They're not much — \$1.00 to \$3.00 each.* But if you were to upgrade to something much more... stunning, like DeckoRail's bronze contour baluster, would your deck really cost three to eight times more?

Not even close! Why? Because your balusters typically account for around 10% of your entire project cost.*

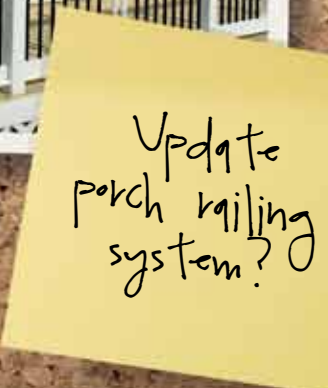

So, in this scenario, the change from boring to brilliant would raise your overall cost by as little as \$18.97 per 6' section (while raising your "wow" factor exponentially!).

And get this, a study by Remodeling magazine shows that adding a deck to your home averages a 70% return on your investment for resale — making it one of the top three improvements most desired by home buyers!

 - 7 black square balusters
 - 7 moulded rails
 - 14 insert rails
 - stain
 - black high point post caps
 - deck stones

~~my~~ my handiwork

You can do this. DeckoRail® components are easy to assemble with basic tools and can be mixed and matched for a unique railing system that you can be proud of. Why settle for ordinary when DeckoRail gives you everything you need to build something extraordinary?

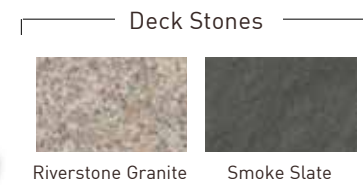

Need more support? Scan for ideas, installation guides, how-to videos and more.

First-class upgrade.

DeckoRail® Deck Stones are perfect for outdoor kitchens, grilling areas or raised fire pits. They can be installed on new or existing conventional wood framed decks and are capable of supporting typical building loads. The high-strength fiberglass substrate frame attaches easily to 16" on-center joists with hidden connectors.

Available in durable 16"-square Riverstone Granite or Smoke Slate tiles, DeckoRail Deck Stones are interlocking and self-draining and do not require mortar.

DeckoRail cast stone postcovers are easy to install, giving you the look of custom masonry at a fraction of the cost. Available in three realistic-looking, earthy styles, they're made of fiberglass-reinforced concrete and hand-painted for a more natural appearance. These postcovers slip over standard 4x4 or 6x6 wood posts, measure 8" square and come in 42" and 53" heights. Post caps are interchangeable.

16 handcrafted post caps.

DeckoRail handcrafted post caps put the finishing touch on your deck, porch or fence project. What's more, they protect your post from nature's elements.

And don't miss the details—the protective laquer on the high point and ball post caps, a hand-waxed finish on the Tiffany-style post caps, the tight-grained kiln-dried wood, matched end grain trim, bolt-secured ball that won't fall off or the shatter-resistant glass used in our solar antique black post cap.
